EXPERIENCE

Full Stack Developer (Freelance)

June 2023 – Sept 2023

E-commerce Platform with Admin dashboard

Remote

- Designed and implemented a full-stack e-commerce platform with Next.js, React.js, and PrismaDB, optimizing performance and increasing mobile conversion rates by 40%.
- Implemented advanced search functionality and a comprehensive metrics dashboard to track and analyze store performance in real-time, including daily, weekly, and date-range.
- Collaborated directly with clients, achieving a 98% satisfaction rate and boosting Customer Repeat Rate by 35%.

PROJECTS

Automation Extensions | *NextJs, Chrome Extension*

June 2024

- Generated **INR 90,000** in revenue within one month, showcasing the effectiveness of the product-focused marketing approach.
- Developed and launched a professional website to market and sell Chrome automation extensions, offering a seamless user experience with intuitive navigation and compelling design.
- Relied on peer-to-peer network groups to organically spread awareness of the product, allowing its quality and utility to drive further adoption and engagement.

PinSightful | *LangChain, Ollama, ChatGPT, NextJs, React, Express, MongoDB, Tailwind* March 2024 – June 2024

- Developed PinSightful, a full-stack AI web app, employing Express.js, React, and Next.js, integrating AI for content generation and analysis.
- Designed an intuitive pinboard-style canvas UI for research data visualization, featuring real-time rendering and seamless navigation.
- Integrated AI models (ChatGPT, Ollama) via Langchain for content summarization, Pinboard chat, and knowledge discovery, enhancing user interaction and content management.
- Utilized Node.js and MongoDB to ensure backend efficiency and scalability and 99% up-time, enhancing overall performance and data management.
